

BREWERS PETITION THE PRESIDENT

Fight Proposition to Make Prohibition a Condition of Territories Becoming States.

URGE INDUSTRY'S IMPORTANCE

Now Ranks Fourth in Point of Capitalization in United States—Claim Injustice Would Be Done.

Washington, Nov. 11.—The United States Brewers Association is making a strong fight against the proposition to make prohibition a condition of admission to statehood with Oklahoma Territory. A petition was presented to President Roosevelt today voicing strong protest against the proposition. It was from fifty-one of the great brewing centers of the United States. The petition does not touch upon the feature of the case that is now most interesting to Oklahoma people, the desire of the people to settle this matter by their own vote, inasmuch as they are as familiar with the needs of the Indians as anybody else. The petition of the brewing interests was presented by Albert Lieber, president of the Indiana Brewing Company, and a member of the Federal Relations Committee of the United States Brewers Association. He said the signature of the White House by Representative Overstreet of Indiana.

In presenting the petition, Mr. Lieber called the attention of the President to the fact that the brewing industry ranks fourth of all the great industries of the United States in point of capitalization and importance, and declared that it had long been the object of misrepresentation and abuse that it was considered a "sin" to make an appeal to the chief executive. He said the signature of the companies signing were the largest in the country, including the Anheuser-Busch, Schlitz, Pabst and Robert Porter of Alexandria.

The petition reads:

"What we want to ask is that, if wise men of the country, guided by yourself, should make a prohibition requirement, it shall not extend to beer and ale that contain less than 4 per cent of alcohol. The fact is that nearly all of it is below 4 per cent and most of it around 2 1/2 per cent."

"Any chemist in the country may examine any sample of American beer, and these facts will be instantly plain. The beverage contains from four to ten times less alcohol than a large number of the foreign imports, which are sold in this country without restriction."

"We are aware that no man who has given serious study to the question will rank beer among the strictly alcoholic drinks. It is a refreshing beverage, and most nutritious food, and it is today the principal factor in turning the United States into a temperate nation. If the Indian is permitted to drink like he has been permitted to drink, he will not get drunk, but will be able to do his work with the same vigor as the white man. He will not find it necessary to drink his money away in saloons, and he will not get into the habit of getting a stimulant. No poison harm will befall him as he is free from drugs or injurious ingredients."

MONDAY'S SALES WILL CROWD THE BIG STORE!

Here's Something No Other Store in St. Louis Has!

ALFONSO OF SPAIN BEATS THE KAISER AT SHOOTING.

King Kills More Pigeons Than the Emperor, and Altogether Makes a Most Favorable Impression in Berlin.

Berlin, Nov. 11.—King Alfonso leaves Berlin for Vienna tomorrow, after six days' stay, with Emperor William. Hunting, reviewing troops, breakfasting, dining and dancing with German princesses.

In two days' wild hunt and star shooting in the great preserves near Hanoor, the Spanish King killed forty-two pigeons and thirty-three other species of game, or three more than the Kaiser, who took care to let the largest animals fall before the King's gun.

The youthful spirits and high spirits of King Alfonso made a sympathetic impression on the Kaiser, who apparently did not make a single error in playing tennis properly and making the first thing, but he has had to spend an hour daily with the court marshal, who supplied him with careful notes on every known likely to be presented.

Thus the King was able to remind Ambassador Toller that he had formerly been an athlete of the American location at Madrid, and at a reception to the Spanish Embassy last night to the Spanish living here and to Germans having Spanish interest, the King said something to each person, indicating that he knew of their connection with Spain, or why they were visiting in Berlin.

KING OF ENGLAND HAS TWO BIRTHDAYS YEARLY.

SPECIAL BY CABLE. London, Nov. 11.—(Copyright, 1905.) There is only one person in the United Kingdom who has two birthdays in the year, and his Majesty King Edward VII. has an "official birthday" celebrated in the autumn on the first day that gives a chance of fine weather for the occasion, but nevertheless, when his real birthday comes, in November 10, which is also by the way, Lord Mayors day, the people will not be making any other kind of celebration.

I don't think I ever saw greater crowds parading the streets than there were on Thursday, both day and night, when the king did not wear a melancholy, weathered face, but as the king has been decorated with decorations and illuminations, which had cost the ratepayers to much money while so many are poor and starving.

Birthday honors are rather more interesting than usual. Ever since the king succeeded to the throne, there have been impermissible disappointments when the birthday of the New Year, that have been indicated but as the king has been understood to be in excess of great, too many new titles. There are much more valued now when they come along than they were in the late Queen Victoria's reign.

On this occasion nothing higher than an archduke has been created. It is not likely there will be any dukedoms for a long time to come.

ARCHDUKE FRANZ FERDINAND HAS KILLED 3,000 STAGS.

SPECIAL BY CABLE. Prague, Nov. 11.—(Copyright, 1905.) Archduke Franz Ferdinand, recently brought down his third thousand stag, a royal with ten unbroken antlers. This figure establishes a world record. Archduke Franz Ferdinand has one thousand stag on December 1, 1907.

GLIMPSE OF COLONEL M. C. WETMORE'S TANEY COUNTY PRESERVE; OTHER ST. LOUIS MEN ARE ENTERING THIS TERRITORY

TANEY COUNTY HOGAN'S POOL

TANEY COUNTY A CLAPBOARD FACTORY

ACROSS THE WHITE RIVER BLUFFS BALD KNOB IN THE DISTANCE

When a man visits any part of Missouri's mountain country, he is surprised that the wilderness of St. Louis does not have country places in all parts of this beautiful and romantic region.

Recently the guests of Colonel M. C. Wetmore and Miss George H. McClann, who have been visiting in the White River Bluffs, have been surprised to find that the preserve is a most interesting and beautiful place.

Colonel Wetmore, who is a native of St. Louis, has been visiting in the White River Bluffs for many years. He has been very successful in his hunting, and has been very successful in his business.

He has been very successful in his business, and has been very successful in his hunting. He has been very successful in his business, and has been very successful in his hunting.

These two men have longest names. One Greek Merchant of Halstead Street, Chicago, has Fifty One Letters in Cognomen and the Other Forty Five.

WESTMINSTER ABBEY IS OVERCROWDED

Canon Duckworth Recommends That Monuments Be Removed and That All the Bodies Residing There Be Cremated.

BOY SPAT ON TROUSERS.

Charles Emery Told Story in Juvenile Court and Was Discharged.

After hearing Charles Emery, 12 years old, tell the story of his spat on the trousers of a judge in the Juvenile Court, Judge J. J. Emery discharged him and told the little fellow to go home.

Emery was arrested Wednesday at Broadway and Olive street by Patrolman McCormack of the Bowdoin, squad, at the instance of William Weather of DuSane, who had been told by a friend that Emery was a trouble maker.

Emery told Judge Emery that he had spat on the trousers of a judge in the Juvenile Court, and was discharged.

THESE TWO MEN HAVE LONGEST NAMES

One Greek Merchant of Halstead Street, Chicago, has Fifty One Letters in Cognomen and the Other Forty Five.

REPUBLIC SPECIAL. Chicago, Nov. 11.—Chicago possesses two of the longest names in the world. They are the names of the Greek Merchant of Halstead Street, Chicago, who has Fifty One Letters in Cognomen, and the Other Forty Five.

WESTMINSTER ABBEY IS OVERCROWDED

Canon Duckworth Recommends That Monuments Be Removed and That All the Bodies Residing There Be Cremated.

SPECIAL BY CABLE. London, Nov. 11.—(Copyright, 1905.)—The funeral of Sir Henry Irving revived interest in the crowded state of Westminster Abbey, from the monuments as well as graves, and if Canon Duckworth, sub-dean of the Abbey, had his own way, he would make considerable transformation. He would make it compulsory that every body should be cremated, and he would have the monuments removed.

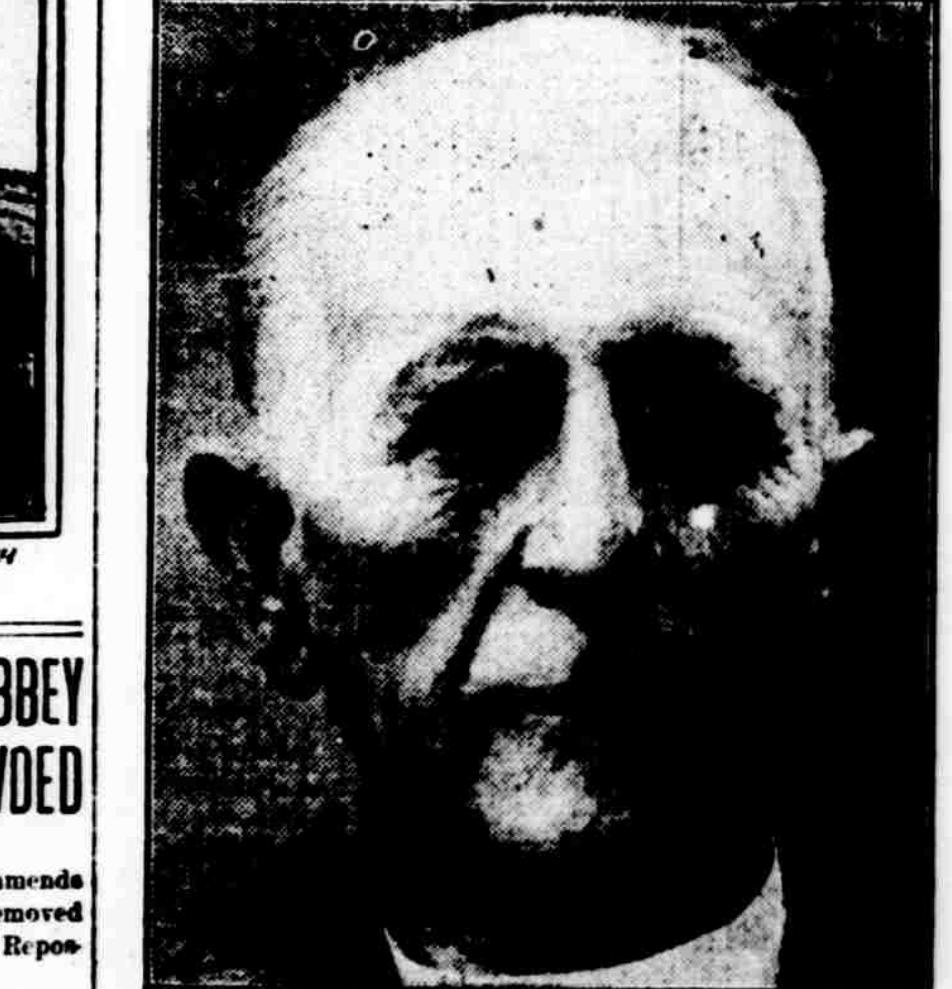

With the diminution of available space in the Abbey for burial, it is recognized that cremation is becoming necessary. If Sir Henry Irving's body had not been cremated it would have been impossible to have buried his remains in so appropriate a place. The coffin being placed only a few inches below the pavement.

Referring to the monuments, Canon Duckworth considers that a number of these are of minor public interest, and will soon require to be removed and placed in a cemetery.

Druggist Knowles Cured of Grippe

Mr. Frank Knowles of Cincinnati, Ohio, Who Had the Grippe for Two Years, Lost 30 Pounds in Weight and Had No Appetite, Pays a Heartfelt Tribute to Duffy's Pure Malt Whiskey.

"I have been in the drug business for 35 years and Duffy's is the Real Life-Giving Tonic-Stimulant Which I Recommend."

MR. FRANK W. KNOWLES

"For the last two years I have had the grip in its most severe form. I lost thirty pounds, was very weak, had no appetite and could hardly drag myself about. I saw Duffy's Pure Malt Whiskey advertised and concluded to try it, and I must say it is just what I needed. After taking three bottles I felt better, and now I am strong. I have regained my former weight and have an excellent appetite. My water is taking Duffy's for loss of appetite and considers it a sure remedy for that complaint. I have been in the drug business for thirty-five years and I have sold a great many different kinds of medicine for stomach trouble, but Duffy's is the only real life-giving tonic-stimulant which I earnestly recommend."—FRANK W. KNOWLES, 112 Chase Avenue, Cincinnati, Ohio, June 18, 1905.

Duffy's Pure Malt Whiskey

Is a sure preventive of disease. It is the only positive cure for consumption, pneumonia, grip, bronchitis, cough, sore throat, malaria, low fevers, dyspepsia, indigestion, constipation and every form of lung, bow and stomach trouble. It aids digestion, induces sound and wholesome sleep, enriches the blood, quickens the heart's action, tones up the system and brings the body back to normal health and strength by going to the source of the disease, killing the poisonous germs and driving them from the body.

CAUTION—Get the genuine Duffy's, sold by all druggists and grocers throughout the world. Beware of cheap imitations. See that the old Chisholm trade-mark is on the label, and be sure the seal over the cork is unbroken. Imitations are absolutely harmful. Medical booklet free. Duffy Malt Whiskey Co., Rochester, N. Y.
